**Supporting
young
people's
right to
real sex
education**

Healthy lives

**begin with what
our children learn
today.**

To grow into healthy adults young people need skills and information to help them delay sexual activity and to protect themselves when they do become sexually active. Without this knowledge, young people are at greater risk for unintended pregnancy and sexually transmitted infections.

Let's not leave our kids in the dark when it comes to their health and their futures – support age-appropriate, medically accurate sex education in our schools.

Visit www.getthefactsny.org to learn more about sex education in New York and sign up for the Get the Facts NY campaign!

**Real sex ed
saves lives.**

Get the Facts NY is a project of Family Planning Advocates of New York State and the Planned Parenthood Affiliates of New York State.
